KRS uses the information from the EOY Report to average and determine service credit. This process can only be performed at the end of the fiscal year for school board employees.

For each employee, the report should include the following:

- Employee Name
- Social Security Number
- Actual Days Worked by the Employee

Please note that total days worked for the school year should be reported for all employees on the EOY Report regardless of the employee’s classifications throughout the year. This means if an employee has a change in either contribution group or position status within the year, you should report the actual days worked for both classifications on the EOY Report.

For Example:

If an employee participates in more than one contribution group over the course of a school year, KRS provides a Multiple Enrollment Report following the submission of the EOY Report requesting a breakdown of days worked by contribution group.

In the above example, 180 days would be included on the EOY Report, but on the subsequent Multiple Enrollment Report KRS provides, the days will be broken down into:

- 90 days for the Probationary status in a Non-participating contribution group, and
- 90 days for the Regular Full-Time Status in a Participating contribution group.

This will ensure the member receives accurate service credit.

Contracted Positions

If an employee holds more than one contracted position with an individual board, please report the total days worked from all positions. Please note that a single day should not be counted more than once.

Paraprofessionals

If the employee is strictly a paraprofessional (coaches only), the employee should be reported with zero days worked on the EOY Report. If the employee is a paraprofessional and has a regular contract job, please report only the days worked for the contract job.
