Report of Independent Auditors

Board of Trustees
Kentucky Retirement Systems
Frankfort, Kentucky

We have audited the accompanying schedules of employer allocations of Kentucky Retirement Systems' (KRS) Kentucky Employees Retirement System (KERS) Pension Fund and County Employees Retirement System (CERS) Pension Fund for the fiscal year ended June 30, 2014, and the related notes. We have also audited the total for all entities of the columns titled net pension liability as of June 30, 2014 and 2013; total deferred outflows of resources and total deferred inflows of resources as of June 30, 2014; and total pension expense for the fiscal year ended June 30, 2014 (specified column totals) included in the accompanying schedules of pension amounts by employer of the KERS and CERS Pension Funds, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair representation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the schedules of employer allocations and the specified column totals included in the schedules of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedules of employer allocations and specified column totals included in the schedules of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedules of employer allocation and specified column totals included in the schedules of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedules of employer allocation and specified column totals included in the schedules of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedules of employer allocations and specified column totals included in the schedules of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedules of employer allocations and specified column totals included in the schedules of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations for the fiscal year ended June 30, 2014, net pension liability as of June 30, 2014 and 2013, total deferred outflows of resources and total deferred inflows of resources as of June 30, 2014; and total pension expense for the fiscal year ended June 30, 2014 of the total of all participating entities for the KERS and CERS Pension Funds, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the combining financial statements of the KRS Pension Funds as of and for the fiscal year ended June 30, 2014, and our report thereon, dated December 4, 2014, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of KRS management, Board of Trustees, KRS Pension Funds employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Organization

Under the provisions of Kentucky Revised Statute Section 61.645, the Board of Trustees (the Board) of Kentucky Retirement Systems (KRS) administers the Kentucky Employees Retirement System (KERS), County Employees Retirement System (CERS), and State Police Retirement System (SPRS). Although the assets of the systems are invested as a whole, each system's assets are used only for the payment of benefits to the members of that plan, and a pro rata share of administrative costs, in accordance with the provisions of Kentucky Revised Statute Sections 16.555, 61.570, and 78.630.

The Board consists of: Thomas K. Elliott, Chair, Governor Appointee; Daniel Bauer, PhD, Vice Chair, Governor Appointee; Mike Cherry, Governor Appointee; Edwin Davis, elected by CERS; J. T. Fulkerson, Governor Appointee; Joseph Hardesty, Governor Appointee; Vince Lang, elected by KERS; Tim Longmeyer, Personnel Secretary; Keith A. Percy, elected by SPRS; Mary Helen Peter, elected by KERS; David Rich, elected by CERS; Randy K. Stevens, Governor Appointee; and, William Summers, elected by CERS.

KERS and CERS are cost-sharing multiple-employer defined benefit pension plans that cover all regular full-time members employed in non-hazardous and hazardous duty positions of any state department, board, agency, county, city, school board, and any additional eligible local agencies electing to participate. The plans provide for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances.

SPRS is a single-employer defined benefit pension plan that covers all full-time state troopers employed in a hazardous duty position by the Kentucky State Police. The plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. No schedule has been presented for SPRS since Governmental Accounting Standards Board (GASB) Statement No. 68 only applies to multiple-employer plans.

Relationship to Combining Financial Statements

The components associated with pension expense and deferred outflows and inflows of resources have been determined based on the net increase in fiduciary net position as shown in the Combining Statement of Changes in Plan Net Position and in accordance with requirements promulgated by GASB Statements No. 67 and 68. The net pension liability at June 30, 2014, is reported in the Notes to Combining Financial Statements and Required Supplementary Information.

Summary of Significant Accounting Policies

Employer contributions to KRS are calculated based upon creditable compensation for active members reported by employers. Employer contributions are accrued when earned and the employer has made a formal commitment to provide the contributions.

Summary of Significant Accounting Policies (Continued)

The Schedule of Employer Allocations reflects employer contributions received for the fiscal year ended June 30, 2014 and includes the following for each individual employer:

- employer contributing entity and reporting code;
- the amount of the employer contributing entity's contributions; and,

Basis of Accounting

The underlying financial information used to prepare allocation schedules is based on KRS' combining financial statements. KRS' combining financial statements for all plans are prepared using the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) that apply to governmental accounting for fiduciary funds.

Use of Estimates in the Preparation of the Schedules

The preparation of the Schedules in conformity with GAAP requires management to make estimates and assumptions that affect certain amounts and disclosures. KRS accrues employer contributions using estimates based on historical data. Actual results could differ from those estimates.

Actuarial Methods and Assumptions

The total pension liability for KRS was determined by applying procedures to the actuarial valuation as of June 30, 2014, and rolling back the total pension liability to June 30, 2013. The financial reporting actuarial valuation as of June 30, 2014, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2014
Experience Study	July 1, 2005 – June 30, 2008
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level percentage of payroll, closed
Remaining Amortization Period	30 years
Asset Valuation Method	5-year smoothed market
Inflation	3.5%
Salary Increase	4.5%, average, including inflation
Investment Rate of Return	7.75%, net of pension plan investment expense, including inflation

Actuarial Methods and Assumptions (Continued)

The rates of mortality for the period after service retirement are according to the 1983 Group Annuity Mortality Table for all retired members and beneficiaries as of June 30, 2006 and the 1994 Group Annuity Mortality Table for all other members. The Group Annuity Mortality Table set forward five years is used for the period after disability retirement.

The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years for KRS. The most recent analysis, performed for the period covering fiscal years 2005 through 2008, is outlined in a report dated August 25, 2009. Several factors are considered in evaluating the long-term rate of return assumption including long term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense, and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment return of 7.75%. The long-term assumed investment rate of return was applied to all periods of projected of benefit payments to determine the total pension liability.

The Schedule of Deferred Inflows and Outflows, and Pension Expense include only certain categories of deferred outflows of resources and deferred inflows of resources. These include differences between expected and actual experience, changes of assumptions and differences between projected and actual earnings on plan investments. The Schedule does not include deferred outflows/inflows of resources for changes in the employer's proportionate share of contributions or employer contributions made subsequent to the measurement date. The net pension liability as of June 30, 2014, is based on the June 30, 2014, actuarial valuation for the first year of implementation. As a result, there are no differences between expected and actual experience or changes in assumptions subject to amortization. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed five year period.
