

# Prescription Drug Coverage

## Value Benefits for Diabetes, COPD, and Asthma

As costs of prescription drugs continue to rise, KEHP wants to help you by reducing what you have to pay! For several years, KEHP has offered Value Benefits, and we now know that you are being more compliant in taking your medications – because they cost you less! This is effective in improving your health, saving you money, and reducing plan costs. It's a win-win for all!

The Value Benefit for diabetes, COPD, and asthma means your costs are reduced if you receive maintenance prescriptions or supplies. Some examples include:

- Inhalers
- Pressure machines
- Infusion pumps
- Blood pressure monitoring devices
- Cardiac monitors
- Supplies and durable medical equipment

You will pay a reduced co-pay and/or co-insurance, and you won't have a deductible.

See the chart below for the cost that you will pay. The maximum you will pay for a 30-day supply of insulin is \$30.

Most supplies and durable medical equipment related to diabetes, COPD, and asthma are covered in full with **NO DEDUCTIBLE**.
